PLAYFUL WARMTH, COLORFUL COMFORT

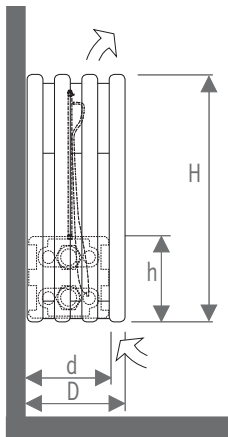

You'd almost think it wasn't possible: so much color in one radiator. The four-color Play4Girls or Play4Boys radiators add a playful touch to any room. Whether you prefer 'clean white' or stylish black, the warm feeling remains!

Play it Safe

Play only provides safe warmth. Its low surface temperature and wooden cabinet with rounded corners meet the strictest safety standards.

The Play adds a nice touch to any home, as well as in a wide range of public buildings, hospitals, day-cares, schools, etc. Whenever a lot of people come together, safety and enjoyment are both essential.

DIMENSIONS

Play is available in lengths from 23.6" (60) to 47.2" (120).

OUTPUT

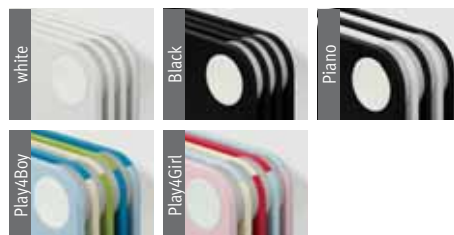

Type	d	h	D	H		
				14	19.5	25.5
				(35)	(50)	(65)
10	4 (10)	4 (10)	5 1/8 (13)	987	1104	1221
11	4 (10)	8 (20)	5 1/8 (13)	1091	1283	1458
15	6 (15)	4 (10)	7 3/32 (18)	1502	1728	1943
16	6 (15)	8 (20)	7 3/32 (18)	1631	1950	2226
20	8 (20)	4 (10)	9 1/16 (23)	2059	2396	2715
21	8 (20)	8 (20)	9 1/16 (23)	2284	2741	3120

Average output in BTU/h foot with 65°F (18.3°C) entering air and 1 GPM flow rate. Mean water temperature of 160°F (71.1°C).

CONNECTION OPTIONS

- thermostatic valve set for easy wall connection
- all Jaga connection sets are adjustable and completely lockable: fin tube elements can be removed without draining the system

COLORS

THE MOST POWERFUL HEAT EMITTERS

Significant energy savings

The most efficient and modern fin tube element, that complies with actual AND future building standards and technologies.

For all low temperature hydronic systems

Perfectly suited for condensing boilers, heat pumps and solar systems.

The perfect partner for radiant heating for improved temperature control and energy efficiency.

Brass collectors with 1/2" connections

With dirt-repellent and dust-proof lacquer in graphite grey

Up to 16 parallel copper tubes for the best heat emission

55 Corrugated aluminum fins per foot for super heat-output at low water temperatures
